Notice of Correction

In the above-mentioned article, the authors requested the following corrections be made:

Peak mitral velocity was also stable during the following up period (1.6 [0.4] m/s, discharge; 1.6 [4.0] m/s, 5 years)
Should instead be:

Peak mitral velocity was also stable during the following up period (1.6 [0.4] m/s, discharge; 1.6 [0.4] m/s, 5 years).

Additionally, the legend for Figure 3 should read as:

Echocardiography-derived valve hemodynamic outcomes over the follow-up period: A, Median mitral pressure gradients; B, effective orifice area; C, Doppler velocity index (DVI); and D, peak velocity.
